PARTIES SELECT THEIR NOMINEES FOR PARLIAMENT

Presentation of Candidates for Coming Election Proceeds at Rapid Pace.—At Least One Is Placed in Nearly Every District, and Lists in Many Cases Are Filled.

SUMMARY FOR ALL PROVINCES EVIDENCES UNUSUAL ACTIVITY

OTTAWA, Oct. 31.—With the official nomination day still three weeks away, the interest everywhere taken, and the nature of the fight to be waged in the coming general election is shown by the array of candidates of all three parties, as well as Independents and Labor men, who have been chosen by party conventions and accepted the nominations. Of the 235 seats there is practically no constituency where at least one candidate has not already been chosen and announced that he would stand for election.

That Ontario will be the main fighting ground is evident from the fact that in 82 constituencies practically all have two or three candidates named, and some have four. The number of candidates in the field for Ontario, who have been nominated and stated that they would stand, according to press dispatches to date, is as follows:

Government, 71; Liberal, 50; Progressive, 65; Independents, 12; a total of 198 candidates, and there are many seats where all parties have not yet held their conventions, and where further nominations are certain.

SERVICE TAX NOW PROPOSED

Hon. John Hart, Minister of Finance, Outlines New Plan to Chamber of Commerce—Civic Dinner Tonight

A hint of what the Provincial Government proposes to offer municipalities during the present session of the Legislature in the way of taxation privileged was given directors of the Chamber of Commerce yesterday by Hon. John Hart, Minister of Finance.

Mr. Hart wrote to the directors, in part, as follows:

"In view of the demand made on the Government by municipalities for greater sources of revenue, in order to meet increased costs, falling exclusively on the land, it has been suggested that the municipalities be authorized to collect a service tax based on stocks-in-trade. At the present time the Government collects a tax on personal property, provided that the amount shown to be due exceeds the amount of income tax.

"It is now proposed to give power to municipalities to collect a service tax, as an amendment to the bill, to deduct the amount of an operating expense when arriving at their profits. The Government would not collect any tax unless there was a profit shown."

Mr. Hart was invited to attend a civic dinner given by the Chamber of Commerce in the Dominion Hotel tonight at 7:30 for the purpose of going on record in respect to the personal property tax and other taxes, and in view of the fact that the amount shown to be due exceeds the amount of income tax.

"As the policy of the Government has not yet been finally decided upon taxation matters, I shall be pleased to receive a memorandum of your Chamber's views in addition to those already submitted to Victoria and Vancouver business interests," added the Minister.

NANAIMO TIMBERMAN KILLED AT HIS WORK

NANAIMO, Oct. 31.—John Nykoluk, a Pole, was killed while at work at the Timberlands Development Co. this morning. Nykoluk was engaged in loading a car when he was struck by the load and was removed to the office, where it was found that his skull was smashed, and he died fifteen minutes later.

Joe Howlan, a Chinaman employed as foreman at Kettleson, dropped dead last night, and was attempting to get to work and take his place as a workman when he suddenly felt his mate immediately ran for help, but when the foreman arrived Howlan was dead.

Hannah Quigley, wife of Dr. John Quigley, of Extension, aged 62 years, died Sunday morning. The deceased has lived in the district for the past nine years. She was born in England. She is survived by her husband, sons, John P. of South Wellington, and George S. of Victoria; two daughters, Mrs. Howland, of Cariboo, and Mrs. Webber, Extension.

INTERNATIONAL WORK TO AID PROHIBITION

GREAT FALLS, Mont., Oct. 31.—Oscar C. Clements, enforcement officer for Montana, was in the city last night en route to Regina, Sask., where a meeting will be held Wednesday by the enforcement officers of border States and the Canadian officers in charge of the enforcement of the prohibition law.

"We hope," said Mr. Shelley, "to arrive at closer co-operation in the handling of the liquor traffic between Canada and this country and enforcement of the prohibition law."

DUCHESS OF ARGYLE MOURNS DISASTER

Lieutenant-Governor Walter C. Nichol received the following cablegram from London yesterday:

"Deeply grieved seeing sad news of terrible flood disasters. Please convey my deepest sympathy to sufferers."

"(Signed)"

"PRINCESS LOUISE,"
"Duchess of Argyle."

PIGGERY DISORGES AN ILLEGAL INMATE

VANCOUVER, Oct. 31.—Arranged on the part of the constable in charge in a pigsty, the trial commenced today in the assize court before Mr. Justice Gregory, on David Black.

Constable Sid Saunders entered the pigsty under a search warrant and discovered eight barrels of crushed corn, three barrels of water, several empty barrels, a number of empty five-gallon kegs, and bottles which smelt of whisky.

CAMERON MILL RESUMES TODAY

Big Lumber Plant Opens After Year's Shutdown, Giving Employment to 200 Men—Gets Order From Japan

The big mill of the Cameron Lumber Company in the Inner Harbor will resume operations this morning after a shutdown of nearly a year.

Twenty Government candidates have been nominated in Quebec to date, four Progressives and two Labor candidates.

New Brunswick, with 11 members to elect, already has 10, according to recent news, making its full quota of 65 Liberal candidates already named. There is only an occasional constituency formerly represented by the Liberals which has not again the same man as Liberal candidate.

Twenty Government candidates have been nominated in Quebec to date, four Progressives and two Labor candidates.

With the reopening of the mill 200 men will receive employment. During the long period of inactivity the mechanical force was maintained practically intact, but no reorganization of personnel will be necessary. The equipment has been kept in preparation for resumption at least as far as possible, but there will be no delays in getting down to a normal production basis.

"The railroad strike appears to be over for the time being, and the general strike at the market conditions has convinced us that it is worth while to start operations again," said Mr. Cameron.

Manitoba, with 15 members to the House, has nine Government supporters, five Liberals, ten Progressives and three who are running under the title of Independents.

Alberta, with 12 seats, has eight Government supporters, seven Liberals, and three Progressives in the field.

Manitoba, with 15 members to the House, has nine Government supporters, five Liberals, ten Progressives and three who are running under the title of Independents.

Alberta, with 12 seats, has eight Government supporters, seven Liberals, and three Progressives in the field.

Yukon Territory, which returns one member, has both a Liberal and a Government member in the field.

In the above list Labor and Independents are grouped.

PREMIER URGES UNITY ON IMPERIAL POLICY

HAMILTON, Oct. 31.—Addressing a meeting of the Royal Kiwanis and Canadian Club yesterday, Premier Meighen emphasized what he termed the grave importance of uniting party divisions on matters of national importance.

"No wise fate could befall this country than that party divisions should occur in regard to the policy within the Empire," said the Premier.

Alberta, with 12 seats, has eight Government supporters, four Liberals, six Progressives and four Independents nominated.

Yukon Territory, which returns one member, has both a Liberal and a Government member in the field.

In the above list Labor and Independents are grouped.

FLAYS RECORD OF GOVERNMENT

Mr. W. J. Bowser, K.C., Conservative Leader, Charges Reckless Extravagance in Administration of Affairs

"Taxing, borrowing, spending."

Rich, neighborly spending," said Mr. Bowser, leader of the Conservative opposition, might well be the slogan of the present Liberal administration in his speech on the debate on the address to the Queen from the Throne in the Legislature yesterday afternoon, the opening of the session.

He pointed to the fact that while revenues have been mounting year by year, due largely to taxation, which has almost doubled, the spending, in spite of tremendous borrowing, has increased even faster.

He pointed to the fact that while revenues have been mounting year by year, due largely to taxation, which has almost doubled, the spending, in spite of tremendous borrowing, has increased even faster.

WORK IS RESUMED
IN LILLE DISTRICT

LILLE, France, Oct. 31.—The strike of the textile workers in Roubaix and Tourcoing, involving some 70,000 hands, which began September 1, was ended today. The 60 per cent of the workers who had been on strike, including 10,000 women, were returning to their jobs.

The other 40 per cent had re-entered the mills from time to time during the past two weeks.

The leaders say that the fight of the workers, which was against a cut in wages, will be continued along other lines.

Tetley's Golden Tips have a flowery aroma and delicate flavor that can come only from the tender, top leaves of carefully selected tea plants.

TETLEY'S
Makes good TEA a certainty.

Skillful blending, taught by a century in the tea business, makes Tetley's so refreshing.

GO WITH LABOR AT CONFERENCE

Majority of Delegates Decide for Retention of Various Items on Agenda—Question of Agricultural Conditions

LONDON, Oct. 31.—A Reuters dispatch from Ottawa says that at Saturday's meeting of the international labor conference the British and Canadian Government delegates were among the many government representatives who supported all the labor delegates in securing the retention on the agenda of concerning unemployment, protection of workers and children and technical instruction in agriculture. The South African Government delegates, however, went with the minority, which included the French and Swiss Government delegates.

Mr. R. Parpex, of Canada, sympathized with the French objections, and contended that the inclusion of agricultural questions in the agenda was impracticable. He suggested going slowly as regards recommendations and conventions.

Some of his statements regarding wages and the Amsterdam international called for a protest from Delegates Ponton, of Great Britain, and Delegate Tom Moore, of Canada. Mr. Moore said if the benefits enjoyed by the industrial workers could extend to agricultural workers, it would conduce to keeping agricultural workers in the farms and preventing migration to towns.

Delegate Martens, of Belgium, also protested against Mr. Parsons' statement concerning the Amsterdam international, which, he said, was unwaranted.

The president intervened and requested Mr. Martens to confine his remarks to the subject under discussion.

COUNTRY LEADS ON PROTECTION

Hon. H. H. Stevens Deals With Tariff Issue at Mainland Points—Necessity of Safeguarding Fruit Growers

KAMLOOPS, B.C., Oct. 31.—"We are not ashamed of the term protection," said Hon. H. H. Stevens, Minister of Trade and Commerce, on Saturday night here, in an address to further the campaign of J. T. Robinson, National Liberal and Conservative candidate. Examining the great resources of the Dominion, Mr. Stevens declared that which demonstrated he said, Canada's trade advancement under the tariff. He declared that the Woods-Crær policy of free trade in five years would mean a deathblow to Canadian industries.

The fiscal situation must essentially be the main issue of the election, stated the Minister, and he said he took no cordial ground with regard to this fact. The whole wealth and development of the country was centred in a continuance of a policy which had built up Canada into its position as a trade rival to competing countries.

Examining Canada's resources from Coast to Coast, the Minister said that the population of the country could only be carried out to the full and highest capacity by a tariff, which was necessary to keep the country free from the menace of inundation of cheap foreign goods. Mr. Stevens said that the policy of protection was sound, and Canadian agriculture had ceased speaking, and John G. E. Moray, national commander, had pinned on them the official emblem of the Legion, which the convention today authorized to wear.

Marshal Foch and M. Charles Bertrand of France are also authorized to wear the emblem.

The convention was aroused to the greatest pitch of enthusiasm during the afternoon when General Diaz and Gen. Jacques delivered their address.

The demonstrations proceeded almost continuously, with most of the delegates having spoken, and John G. E. Moray, national commander, had pinned on them the official emblem of the Legion, which the convention today authorized to wear.

Marshal Foch and M. Charles Bertrand of France are also authorized to wear the emblem.

HARD COAL REPORTED IN NORTHERN ONTARIO

TORONTO, Oct. 31.—What is believed to be an extensive deposit of hard coal has been recently discovered at Latchwood, Northern Ontario, about 25 miles northwest of Sudbury, and development work on the property is already under way.

RESENTS SUGGESTION THAT HE PROFITED

Captain Mackenzie, Liberal Member for Vancouver, Declared Veiled Insinuations of Opposition Leader Not Facts

Declaring that veiled charges had been made by the Opposition leader against certain members of the Legislature when he stated that certain members had profited through securing consents from the Attorney-General to operating bonded liquor warehouses in this province, consents required under federal legislation before the Dominion would grant licenses to such warehouses, Captain Mackenzie, a Liberal Member for Vancouver in the Legislature, yesterday afternoon rose on a question of privilege to make a statement.

"In a Vancouver morning paper yesterday there was a charge that the firm of Mackenzie & Boyd had profited to the extent of \$3,000 through securing the consent of the Attorney-General for a licence issued to them to operate a bonded liquor warehouse in Vancouver, and undoubtedly publication of this story, notice of which had been telegraphed to Victoria in the morning, inspired the member for Vancouver to make his statement.

Veiled Insinuations

Capt. Mackenzie stated he resented the veiled allegation by the leader of the Opposition, made in the latter's speech in the House on Thursday last. He also referred to the story in a Vancouver paper, which his partner had addressed him over a long-distance telephone, had appeared in that paper. He stated that his firm in February last had applied to the Attorney-General for a warehouse licence in favor of Lloyd & Son, Ltd., an application endorsed by Mr. George Miller, chief inspector under the Liquor Act. All the legal work in connection with the application had been done by his partner while Capt. Mackenzie was in Victoria attending his parliamentary duties, and Mr. Boyd was entirely responsible for fixing the fee. Mr. Boyd had approached the Attorney-General by letter, Capt. Mackenzie stated, and he mentioned that the member for Vancouver had mentioned the matter to Hon. Mr. Price, and knew nothing about it. He had for two weeks been detained in Victoria, following the last session of the House owing to an indisposition, but on his return on April 16, he had learned the circumstances and had immediately taken the matter up and had written to Mr. Colquhoun, one of the partners of Messrs. Lloyd & Son, the following communication:

"His Proposal

"Upon returning to the office today, after an absence of ten weeks at Victoria attending the session, I find that my firm did some legal work for you by way of making application to the Provincial and Federal Governments for a bonded warehouse in your name. Although I understand the firm gave the best part of a week entirely to this work, I consider the fee charged in excess of the ordinary legal fee. I find that half this fee was deposited to my credit in the Bank of Montreal.

"In order that there may be no question as to all about the propriety of this matter and no suggestion of the exercise of influence on my part in any capacity as a member of the Provincial House, I enclose my cheque for \$1,500, being the amount placed to my credit. I have further caused to be executed an agreement between my firm and your firm to the effect that I shall not be retained in or part to any fees accruing to the firm, either directly or indirectly from Government sources.

"Trusting you will understand my motives in writing this letter, I remain,

Capt. Mackenzie stated he waited some time and on May 21 last he had again written to Mr. Colquhoun, to the effect that he found that this cheque for \$1,500 had not yet been cashed, and he asked that it be cashed by noon of the following day or be returned to him, in which latter case he would hand it over to the G.W.V.A. relief fund.

Aid of Soldiers

On the same day he had written to the Provincial President of the G. W. V.A., Vancouver, a letter to the effect that on his return he had found that the amount of \$1,500 had not been cashed, and he asked that it be cashed by noon of the following day or be returned to him, in which latter case he would hand it over to the G.W.V.A. relief fund.

Mr. John R. Green

On the same day he had written to Mr. John R. Green, in Chambers yesterday, and said that the furniture in question had been removed in defiance of an injunction order issued by the court; and also despite an undertaking between himself and counsel for the other side that the furniture should not be removed without notice.

He was seeking a injunction legal affairs which was slowly and reluctantly unravelled before the learned judge. Mr. Green said that he was acting for himself and W. P. Hall, a law student in his office. On his side of the case also was Mr. F. C. Elliott, acting for A. D. Ford. These in the suit, were bringing

in consequence of the validity of the first measure being questioned by Mr. Bates, who held a chattel mortgage on the furniture.

In response to this suggestion, Capt. Mackenzie quoted he had received a letter from Mr. Walter Drinnan, of the G.W.V.A., expressing thanks for the cheque and assuring him that the donation was very much appreciated, arriving at a time when the finances of the command were at a very low ebb.

Following the reading of the above communication, Capt. Mackenzie decided to rise up and say out four and may that not as much as one cent did I profit, and I am willing there should be a full investigation into the whole matter. I consider there is something sinister in the fact that this springing of the story in The Sun is coupled with the fact that Mr. Colquhoun is a brother-in-law of Mr. A. J. Cromie, proprietor of The Sun."

Retirement in Australia

H. C. HOLMES IS DEAD AT SAN FRANCISCO

SAN FRANCISCO, Oct. 31.—Messages of condolence are being received from many points today at the home of Howard Carlton Holmes, 67, builder of the Union Fire buildings blocks here, the cable railways in Spokane and Portland and the Madison Street Railway in Seattle, who died yesterday after an illness of several weeks.

Holmes was prominent nationally as a civil and consulting engineer. In 1904 Holmes was commissioned to report on floating docks for the Government. He also planned the Canadian Government drydock at Victoria. He was born at Nantucket, Mass., and is survived by his widow, Mrs. Josephine Bauer Holmes.

Archives Branch Does Important Work

Newspaper Reports of House Proceedings Collated and Will Form Species of Hand-sard for Members' Use

Following the customary practice, the Archives department of the Provincial Library has provided a mass of material for the assistance of members of the Legislature in the shape of newspaper reports of the debates and proceedings of the last session of the House. What should prove of particular value to the members of the Legislature is the report of the present session, in view of the likely discussion of a number of important amendments to the Liquor Act, will be the collection of clippings from the papers of Victoria and Vancouver, together with an index to the Liquor Act, which 100 entries. Manuscripts to the number of 1,045 were read and classified, according to the report of Provincial Librarian Foy, presented to the Hon. J. D. MacLean, Provincial Secretary.

An important work undertaken was the transfer of the early manuscript records of the Lands Department to the Archives department, and all such records dated prior to Confederation will be assembled in the Archives.

The report sets forth that during the year there has been an increase in business, with 20,000 volumes issued and 1,719 new books were added to the library.

The following list of questions have been dealt with in the library and memoranda on them prepared:

Government Control and Liquor Traffic in Foreign Countries Working Synopsis of the Saskatchewan Act, Maternity Benefits; Immigration Law of the Country Restricting Immigration; Alien Land Act; Alien Land and Immigration of Billiard, Water and Sewage Board in the U.S.A.; Doherty Act; Preferential Voting in Australia; Minimum Age of Children for Industrial Employment; Old Age Pension; Taxation of Timber Limits in U.S.A.; Taxation of Farm Lands Within Cities; Colonization Schemes; Public and Private—American-Japanese Treaty and League of Nations; State Budget Systems.

His Proposal

"Upon returning to the office today, after an absence of ten weeks at Victoria attending the session, I find that my firm did some legal work for you by way of making application to the Provincial and Federal Governments for a bonded warehouse in your name. A BELATED INJUNCTION FAILS TO RESTRAIN

Order of Court Is Issued Fifteen Minutes After Truck Has Departed With Furniture to Place Unknown

The question: "When is an injunction not an injunction?" came before His Honor Judge Lampman Friday, and the learned judge decided that the occasion is when an injunction is issued in restraint of an accomplished act; the particular case in point being an injunction against the removal of furniture valued at \$300, issued fifteen minutes after the furniture had already been removed.

Mr. John R. Green came before His Honor in Chambers yesterday, and said that the furniture in question had been removed in defiance of an injunction order issued by the court; and also despite an undertaking between himself and counsel for the other side that the furniture should not be removed without notice.

He was seeking a injunction legal affairs which was slowly and reluctantly unravelled before the learned judge. Mr. Green said that he was acting for himself and W. P. Hall, a law student in his office. On his side of the case also was Mr. F. C. Elliott, acting for A. D. Ford. These in the suit, were bringing

in consequence of the validity of the first measure being questioned by Mr. Bates, who held a chattel mortgage on the furniture.

Then, at 10:30 a.m. yesterday, Mr. Bates drove up to the house where the furniture was lying, seizure was made in the name of Mr. Bates, and the truck drove away with the furniture. A few minutes before this, Mr. Green had notified Mr. Foot that an injunction would be issued. In view of all this, Mr. Green said he would be content if this injunction was continued; and he would then take such other steps as the law required.

Injunction Dissolved

For the defence, Mr. Foot produced affidavits setting forth that the affidavit on which the injunction had been obtained was sworn to before the deputy registrar fifteen minutes after the furniture had actually been removed from the house. Mr. Foot said that he was not obliged to give notice of Mr. Green's telephone message about the injunction, as he had no means of knowing whether that was anything more than a blurt. Mr. Foot further said that all undertakings between himself and Mr. Green had been abrogated by a letter from the latter, purporting to read in full. Mr. Foot also declined to disclose the place to which the furniture had been taken.

The learned judge said that in essence the dispute resulted itself into a contest between the parties as to which of them should quickest get possession of the furniture. Mr. Foot had been abrogated by a letter from the latter, purporting to read in full. Mr. Foot also declined to disclose the place to which the furniture had been taken.

HALF-WAY HOUSE RAIDED

Proprietor Faces Charge in Esquimalt Police Court of Illegally Having Liquor for Sale

As the result of a raid on the Half-way House, Esquimalt, last Tuesday night, by Capt. B. W. McLean, of the Esquimalt police force, Emil Wird, proprietor of the hotel, was charged before Magistrate Jay yesterday with having liquor for sale and also with having liquor not sealed with the Government seal. The defendant pleaded not guilty to both charges.

Mr. J. A. Alkman, who appeared for the defence, raised a preliminary objection of want of jurisdiction in the court, on the ground that the Government Liquor Act was inoperative, in that it had never been properly proclaimed. Mr. Alkman said that he was not obliged to give notice of Mr. Green's telephone message about the injunction, as he had no means of knowing whether that was anything more than a blurt. Mr. Foot further said that all undertakings between himself and Mr. Green had been abrogated by a letter from the latter, purporting to read in full. Mr. Foot also declined to disclose the place to which the furniture had been taken.

The learned judge said that in essence the dispute resulted itself into a contest between the parties as to which of them should quickest get possession of the furniture. Mr. Foot had been abrogated by a letter from the latter, purporting to

ARTIC EXPLORER
IS CALLED BY DEATH

EDINBURGH, Scotland, Oct. 31.—William Speirs Bruce, Arctic explorer and author, is dead; it is announced here.

Mr. Bruce was born August 1, 1867, and was educated at the University of Edinburgh. He acted as geologist for the Royal Antarctic expedition in 1892-93. He continued his polar researches in 1898 with the Jackson-Harmworth Polar Expedition. He remained in the Arctic for two years, and later made three voyages into the Far North as naturalist for the Prince of Monaco. He was leader of the Second National Arctic Expedition, which left Scotland in 1902 and returned in 1904, and which resulted in the exploration of 150 miles of the coastline of Antarctic.

His work in the extreme southern and northern latitudes continued until 1920, and he was the author of a large number of papers.

"Future of One-Man Car"—which the one-man cars will be equipped, was explained by Mr. Goward. The removal of the motorman's foot from the air valve shuns off the power, applies the brakes and sends the rails.

"My honest opinion is that inside of a few years there will be no two-motor cars running, except in the crowded districts, such as New York," said Mr. Goward. At first there was bound to be a little confusion here when the change was made, he believed.

DEFENDS ONE-MAN CAR BEFORE GYROS

Mr. A. T. Goward, Manager of Street Railway Company, Tells of Success of System Elsewhere

A defence of the one-man car was placed before the Gyro Club yesterday by Mr. A. T. Goward, manager of the B.C. Electric Railway Company, at the weekly meeting in the interior Cabin. He stated that those men who were no longer required by the company would not be turned loose to join the ranks of the unemployed, but would be looked after over the Winter.

The B.C. Electric Railway Company, said Mr. Goward, had invested about three million dollars in the local street railway. With the six-cent fare and no jitney competition it had lost \$13,000 here in the first six months of this year in straight operation. The company would have to rough it \$25,000. Money could not be obtained without paying for it, and figuring that it could be had for five per cent—which it could not—the company would be out about \$135,000 in its street railway business for the year.

In ordinary business that less money there were two paths open to provide a remedy. The price of the product or the service could be raised, or the cost of production or of the service lowered. Mr. Goward recalled the difficulties that had been faced in securing the six-cent fare, and the decision to go to the public with the plan of reducing the cost of operation the one-man car system was going to be used at the beginning of the year.

All Doubt Removed

Before deciding to make the change Mr. Goward stated that he had investigated the one-man car system in other cities, in company with Superintendent Tripp. He, personally, had been rather dubious as to the success of the plan, and did not expect to find that such good results were being obtained.

In Spokane, said Mr. Goward, there was not a two-man car. He had interviewed prominent citizens there and every one of them had expressed the desire to be satisfied with the change. He had talked to the motormen on the cars, inognito, and had found that they preferred the new system. They could keep just as good time, as there was no delay through the getting of a car, his own conduct or the like. They preferred to run the car alone as it gave them more to do, and, therefore, the time passed more quickly.

Mr. Goward stated that he had sent out questionnaires to many of the companies operating one-man cars, and the replies were all in favour of the reduction of them, and also letters from some of the transportation companies in the big cities, endorsing the one-man car.

The replies to the questionnaires claimed the one-man car to be safer than the two-man car, and also that the one-man car's operation was not slowed up, and in some cases was speeded up. The opening and closing of the doors by the motorman would naturally cut down accidents, said Mr. Goward, as the operator would see that passengers were safely on and off before starting the car.

The "dead man control," with which the one-man cars will be equipped, was explained by Mr. Goward. The removal of the motorman's foot from the air valve shuns off the power, applies the brakes and sends the rails.

"Future of One-Man Car"—which the one-man cars will be equipped, was explained by Mr. Goward. The removal of the motorman's foot from the air valve shuns off the power, applies the brakes and sends the rails.

Miss Rachel Davis, niece of Mr. and Mrs. Evan Davies, of the City Hall staff, will leave here December 3 for Los Angeles, where she will be married to Mr. Anton Anderson, nephew of Mr. A. Anderson, of Carey Road. Miss Davis will be accompanied to California by her cousin, Mr. David William Davies, son of Mr. and Mrs. Evan Davies. Following the wedding in Los Angeles the newly-married couple will make their home in Fresno, where Mr. Anderson has a responsible position with a surveying and en-

PROMISE AID IN BUYING DISHWASHER

Florence Nightingale Chapter, I.O.D.E., Votes Sum Towards Procuring Equipment for Tubercular Ward

Pursuant to the Chapter's specialized line of hospital work the members of the Florence Nightingale Chapter, I. O. D. E., who were in session yesterday afternoon, voted the sum of \$400 towards a fund to be devoted to the purchasing of a new dishwasher for the Tubercular Ward of the Provincial Royal Jubilee Hospital. Miss Mackenzie, of the hospital, was present at the meeting and was most appreciative of the work achieved by the members who visit the Tubercular Ward each Friday afternoon. Plans for the Christmas decorations of the ward were discussed, and many of the members have offered periodicals for the patients' benefit.

The bazaar to be held by the Chapter on the afternoon of the 13th of this month was discussed, and the affair will be formally declared open at 9 o'clock by Mrs. Curtis Sampson, municipal regent. Tea will be served during the afternoon by the management of the Cabaret, and a musical programme is being arranged by Mrs. McCaffery. On next Thursday afternoon the working committee, comprising articles for sale at the bazaar, will meet at the home of Mrs. McCaffery, 1402 Stanley Avenue.

Endorsement of the G. W. V. A. plan to sell poppies on Armistice Day was announced, also the payment of the Order's delegates' expenses to the conference at Toronto. Mrs. Schofield will be invited to speak before the Chapter on the subject of "Good Hygiene." Mrs. R. S. Day was appointed the Chapter's delegate to the Christmas Relief Committee, and the sum of \$25 was voted to this undertaking.

Laura wreaths will be placed on the soldiers' graves under the care of the Chapter on Armistice Day, these to be constructed by Mrs. H. K. Prior and Mrs. McCaffery. With reference to the Armistice Day poppies, Mr. J. A. Appleyard that each Chapter pay \$15 to liquidate the debt against the Soldiers' Graves Committee, the Chapter wishes to ascertain the amount already paid by each Chapter, and thus obtain the proportion owing from this branch of the Order.

Owing to a delay in the picture of the sale of the poppies, the poppies will not be presented to the Girls' Central School on Armistice Day, as had been planned, but the ceremony will take place at a later date. The very interesting address delivered recently by Mr. Maynard, showing lantern slides, at the school, under the Chapter's auspices of the early days of the war, in the Canadian districts, resulted in the sum of \$6.15, which will be devoted to the purchasing of new records for the school gramophone.

ESQUIMALT JOINS IN CHILD WELFARE WORK

Organization for the Promotion of Health of Children Launched Last Night—Officers Chosen

The Esquimalt Child Welfare Council was formally launched last night at a meeting held in the assembly room of the Lampton Street school, under the auspices of the Esquimalt Women's Institute. Mrs. F. Ricketts, the president, occupied the chair. Other officers were selected as follows: Hon. president, Mr. W. W. Wilson; president, Mrs. W. H. Booth; vice-president, Mrs. F. Campbell; secretary-treasurer, Mrs. Herbert Merry; executive, Mrs. T. Watson, Mrs. F. Sanders and Mr. G. Cook. A committee of 12, the Council, was chosen, resulting in the sum of \$6.15, which will be devoted to the purchasing of new records for the school gramophone.

SOCIAL AND PERSONAL

Mrs. Joseph Reades, of Cowichan, has taken up her residence for the winter months at Victoria House.

Mrs. Goward, of Victoria, has as her house guests Mrs. Richardson and her daughter, Miss Florence Richardson, of Vancouver.

Mrs. Hilda Knight, of England, who is a visitor in this city, is the guest of the Misses Wardrop, 120 Menzies Street.

H. F. Harman, land commissioner, Hudson's Bay Company, is visiting Victoria and is staying at the Oak Bay Hotel.

Mr. and Mrs. J. H. Fowler, 2542 Roseberry Street, are receiving the congratulations of their many friends upon the birth of a daughter.

Mrs. Walter C. Nichol, who recently arrived in Montreal from England, left last Friday for this city, after spending a few days with her parents. While here Mr. Tweedie enjoyed some of the Island shooting and got some very good bags.

"At the Sign of the Big Clock" 1113 Government StreetINFUX FROM PRAIRIES
EXPECTED VERY SOONAdvance Guard of Annual
Exodus Has Appeared at the
Rooms of the Development
Association

The past week has seen the advance guard of the Prairie visitors, five families having called at the Association rooms requesting information and directions as to housing accommodation. It is a little early yet to look for many people from the West Coast, however, as the majority do not begin to come in before the latter part of November. A large number are expected during the early part of the Winter, as it has been stated there will be quite a movement to the Coast. It is hoped by the big advertising campaign which is being undertaken to induce many of the tourists to spend the Winter away from the prairie blizzard winds of the Prairies to come to Victoria rather than to go South. There are so many reasons for this, not the least important of which is the adverse rate of exchange now existing between the United States and Canada, that it ought not to be a difficult matter to persuade intending travellers to make this their objective.

Method of Advertising

Following the advice of the president of the Association, it is intended so far as is possible to make all advertising a co-operative matter. The plan which he formulated has won their popularity since its inauguration. It was at first with the educational booklet, all of the private schools in Victoria, as well as Mr. Lonsdale's school at Shawnigan, taking space. By this means a much more attractive publication was produced than would have been possible without co-operation.

The Prairie advertising is another feature of the co-operative plan, and another feature which at present under way is that which will assist the up-Island hotels and advertise the wonderful up-Island trip.

In order to accomplish this all the proprietors of the various resorts were written to and the object explained. A number of the staff went up the Island and secured the signatures of the managers of the hotels for space in the booklet. Practically every hotel on the Island which comes under the head of tourist resort has been booked up, and it is expected that the folder issued will be credit to them and to this Association. The booklet will be fully illustrated, and will contain a map in the first part, describing the beauties of the up-Island trip. Following the story will come the resorts in order, beginning with Sooke Harbor Hotel, Brentwood, Cadboro Bay and Deep Cove, and continuing along the coast to Victoria, and then to Forte, Lamont, at Campbell River, Klahoose Lodge at Sproat Lake, and Joe Drinkwater's place at Great Central Lake. These books will be distributed through various agencies, and in reply to the numerous inquiries reaching this office from individuals and from the Pacific Northwest Tourism Association.

"The truth is," continued Col. Gretton, "that the success of the conference has been due to the fact that the parties are fundamental. These were not matters for secret negotiations, as they were vital to the safety of the Government. The Government, he said, was negotiating with men who 'glorified in their association with the rebels and assassins, and the Government is proposing to hand over the government of Ireland to these people.'

Mr. Lloyd George, said Col. Gretton, had condemned the murder gang, and he asked what had changed the circumstances. The Government had gone too far in offering a loan to Ireland, which the members had in 1910 contended did not differ from complete separation of independence.

Dangers Elsewhere

"If the Government deals with a gang of gunmen," continued Col. Gretton, "it will be brought to justice elsewhere. They are beginning in India, we have heard of something in Egypt and there are beginnings at home. The Government is careless of the honor of the country, the people, too timid to uphold the great principles of law and order upon which our country is built. It will, if it continues on these courses, bring us disaster, not only in Ireland, but throughout the world."

The Unionist member declared the British people were to be terrorized by a small gang of men subsidized by foreign money."

The conference had virtually broken down, he said, and the Government obviously was seeking some pretext to break it up.

"Is the Government trying to disclaim the responsibility of the movers of this motion on Ulster by making a proposal which Ulster cannot accept?" asked Col. Gretton, who said he and his colleagues wanted peace in Ireland, and also a conference, but not with the Sinn Fein. The people to negotiate with were the people who lived in Ireland and not the authors of terror.

LEGISLATURE VOICES
SYMPATHY OF MEMBERS

Unanimously Approve Resolution of Sympathy With Sufferers in Saturday's Flood Disaster at Britannia Beach

Expressing its regret at the recent disaster at the town of Britannia Beach, where many lives were lost from floods, and further, placing on record its heartfelt sympathy with the relatives of friends of those who have lost their lives, the Legislature yesterday afternoon passed a resolution of sympathy and extending its condolences to those who lost friends and relatives.

Premier Oliver, at the opening of the House, rose and explained that the Government had not been advised of the disaster until late on Sunday night, when he had been fully informed and had immediately communicated with the Government agent at Vancouver, from whom he later received a report that Provincial Constable Nor had six gangsters at Britannia Beach and that all valuable found were taken charge of and the march of bodies had been pronounced. On Sunday night band concerts at the Capitol will be announced in the Prairie advertising, in addition to the hockey matches at the Arena and the theatrical attractions.

Cuts of the two bands are being prepared and will feature in these attractions.

The Victoria and Island Development Association passed a resolution at the monthly executive meeting yesterday in support of the efforts of the 8th Regiment toward development of the new Drill Hall as a community centre. Pending the establishment of a real community centre, the association realizes that every assistance ought to be given to this undertaking. Both the Saturday night concerts and the Sunday night band concerts at the Capitol will be announced in the Prairie advertising, in addition to the hockey matches at the Arena and the theatrical attractions.

Cuts of the two bands are being prepared and will feature in these attractions.

The above attractions will also be dwelt upon in the campaign which is to be conducted in Vancouver, Seattle and Port Angeles to bring week-end visitors to this city. The C.P.R. has arranged to have the boat Jean Victoria on Sunday night, which will be a further inducement for visitors to come over for the week-end.

Another undertaking worthy of mention is that in connection with the annual yachtling regatta of the P.N.W. Yacht Club to be held in Victoria waters every year, from now on, it being recognized that there are better weather conditions here than at any other place within the Gulf of Georgia or Puget Sound. The Victoria and Island Development Association is using propaganda throughout California and the West Coast to bring in the hope of interesting wealthy yachtmen to come up here with their boats and take part in the international competitions. There are two important cups for competition. The first, for the two-masted cruising yacht, is the Thomas Tapton Cup, in custody of the Victoria Yacht Club, and valued at \$1,000, and the Ishawood Cup, which is a prize almost equally valuable.

This association is also taking steps in regard to the rumored removal of the totem poles from Alert Bay to the Victoria and Island Development Association.

VOTERS' LIST HITS PINNACLE

Number of Householders Registered Surpasses All Previous Records by Big Margin—Eleventh Hour Stampede

Victoria faces the December civic elections with far the largest number of listed voters in the city's history.

Overwhelmed by an eleventh-hour rush, induced by the activities of various groups in municipal politics, appears from the pulpits of Victoria churches on Sunday, and the persistent "Get-a-Vote" campaign launched by the G.V.C. Club and supported by other public organizations, that C. W. Bradie and his staff worked under terrific pressure all yesterday in an effort to keep the stream of last-minute registrants moving.

By the time the totals have been compiled and recounted, the aggregate number of householders on this year's voting list will be considerably more than 2,300, or about 500 more than the record set in 1919.

Property owners and licence holders, the number of persons entitled to vote at the December 14 election will

be approximately 11,500, or about 1,200 more than last year.

More than doubling all previous records for daily registration and setting a high mark which will probably stand for a long time, 503 names were added to the list at the City Hall yesterday. When the office was opened this morning, there were 1,000 names on the list, and when the morning was over there were more waiting outside. The list was closed at 5, but when the staff returned to add up the figures and attend to other details a couple of hours later the City Hall corridors were crowded by people who had to be turned away. They had intended that the list would be open until 9 o'clock, as last year.

Such a rush developed yesterday afternoon that Mr. Bradie asked Major Porter for additional assistance, and City Assessor William Scowcroft and Assistant Assessor William Northcott joined the City Clerk's crew, and the list was completed.

The Mayor finally decided to throw in the sponge, and the registration and Miss Kathleen O'Roarke commenced to take names. The crowd continued to grow and finally the overflow reached the Mayor's own office. Bowing to the inevitable, he put other matters aside and became a registration clerk himself. At five o'clock his desk was littered with papers and two dozen bills, and aldermen anxious to transact special business with him had to wait.

SKATING RINK OPENS TONIGHT

Manager Lester Patrick Announces Everything Ready for Opening—Expects Large Crowd

The skating rink opens tonight!

Lester Patrick, the manager of the local Skating Arena, announced yesterday afternoon that everything is in readiness for the opening tonight and expects that close on to 1,000 skaters will be in attendance.

All day yesterday the skating rink staff were busy preparing the ice for tonight, and today the men will give it the final touches. Freezing operations started Friday afternoon and have been going on steadily since, owing to the weather being somewhat mild during the past few days. The freezing has been held back to their capacity to gain hardness in making ice. However, everything will be in tip-top shape for tonight and the staff guarantees a perfect sheet of ice.

The prospects for a good season are indicated by the rush to the "skate sharpeners." During the past week hundreds of the steel blades were laid across the floor of the service and repair shop. There will be a big rush today by those who put off till the last hour their pressing duty. Sporting goods houses report there is quite a brisk sale for tubs this year, even more so than during the past few seasons.

Manager Patrick promises a band that will play honest-to-goodness jazz music will be in attendance every evening this Winter and Saturday afternoon.

The skating hours and prices this season will be the same as in the past. The Arena will be open every afternoon and evening except Monday, which has been reserved for the Amateur Hockey League.

AMERICAN LADIES WILL TRY TO WIN BRITISH GOLF TITLE

NEW YORK, Oct. 31.—Miss Rosamond Sherwood, of New York, N.Y., one of the best women golfers in the Metropolitan district, announced today that she would compete in the British ladies' championship tournament next year. Miss Marion Hollins, holder of the United States women's title, is expected to be a member of the United States team invading England.

Yesterday Miss Sherwood and Miss Cecil Leitch, British and Canadian champion, were defeated four and two by Miss Hollins and Miss Edith Letch in a four-ball exhibition game at St. George's Club, Stonybrook.

UP-ISLAND SOCCER

NANAIMO, Oct. 31.—A meeting of the Upper-Island Soccer League was held Saturday night, delegates being present from South Wellington, Ladysmith, Granby and Nanaimo. The Nanaimo City club wrote complaining of the manner in which the Upper-Island Soccer League was run. Mr. Kenny, a recent arrival from the prairies, who was to have played with the local team, as no delegates were present from Cumberland, it was decided to take no action in the matter, but to notify Cumberland to have delegates present at a special meeting to be held on Thursday next.

The postponed game between Granby and Cumberland which was to have been played on October 2, was ordered to be played at some open date after the end of the present schedule.

It was decided to play a benefit game on November 9, the proceeds of which will be given to Mr. Fred Bedington, whose home, together with contents, was destroyed by fire at Granby recently.

The Nanaimo City team will be picked from the following players: Sheppard, Strang, Lawsky, McAuliffe, G. C. Hobday, D. Hobday, Strang, Davies, Grant, Crosbie, Reserves, Mathews, Emmerson, Green.

SALT SPRING HOCKEY

Club Steadily Growing in Strength—Match with Victoria Being Arranged

GANGES HARBOR, Oct. 31.—The Salt Spring Island Hockey Club started a猛增的 membership, the largest membership since pre-war days. Practices are being held on Saturday afternoons during the Winter, in the Agricultural Show grounds. The annual meeting took place on Saturday, October 29, in the Mahon Hall, and the following officers were elected for the season: Mr. C. A. Morris, vice-president; Mr. Harold Price, secretary-treasurer; Mr. Reg. Price, vice-captain; Mr. P. E. Lowther, committee; Mrs. B. C. Cartwright, Miss G. Wilkes, Mr. H. A. Robinson and Mr. Eric Springer, trustees.

"We are trying to arrange its first match with the Victoria team for Saturday week, November 12, to be played on the latter's grounds.

DARK BLUES WIN

LONDON, Oct. 31.—In a rugby football game today Oxford University defeated Birkenhead Park by thirty to six.

J.B.A.A. Rugby Practice

The J.B.A.A. Rugby players will hold their usual general practice in the club's gymnasium tonight at the usual time.

Up-Island Basketball

NANAIMO, Oct. 31.—The Ladysmith High School basketball team were defeated here Saturday evening by the local school by forty-three points to eleven, while the girls' team from Ladysmith were defeated by the local girls by eleven points to four.

WHO GOT THE COIN?

Toronto Globe Asks Awkward Question Concerning Last Year's Soccer Tour

TORONTO, Oct. 31.—The Globe carries the following in its sport page:

"The secretary of the Dominion Football Association is pestered over the P.Q.E.A. asking for a final statement of last season's play and the Soccer tour. Roy says that everybody knows that there is no surplus to divide. Secretary Roy might explain how it is that over \$100,000 was taken in gate money in Canada, and the whole tour was to cost \$2,000. What has become of the money?"

The secretary of the D.F.A. expects to give the P.Q.E.A. a statement of the money, about \$75,000 additional, in exchange.

HOCKEY ASSOCIATION

MAKES NO DECISION

Committee Will Interview Arena Company and Endeavor to Come to Some Agreement for Rink Rental

At the adjourned meeting of the Victoria Senior Amateur Hockey Association held in the evening at the Y.M.C.A., it was decided that a committee should interview Lester Patrick, manager of the Arena Company, and endeavor to come to some agreement for the rental of the rink this season.

The association passed a vote of thanks to Percy Watson, the retiring secretary, for his untiring efforts during his term of office. Dave McFarlane's resignation as secretary of the association was laid on the table until next meeting.

The meeting decided that there should be only four teams in the league this season, the Elks, G. W. V. A. Garrison and Senators, to retain their franchises.

The annual meeting of the British Columbia Hockey Association is to be held in Vancouver on November 12, and Mr. Harry Sturtz was appointed to represent the local association and club.

The question of organising a commercial league was again discussed, but nothing definite was decided upon.

Safeguarding Industries

With the passage by the British Parliament of the 1921 Tariff Bill, Great Britain franky has returned to a system of tariff protection and it should be remembered that it was under the protective system that the manufacturing industries of the United Kingdom were developed to a position of dominance and importance.

The first part of the bill deals with "key" industries and, in the words of

the United States Commercial Attaché at London, "a tariff measure

which affords protection to British manufacturers, seeking to place similar goods in the Canadian market, were offered

space for westbound shipments at approximately one-third the rate applicable on the shipments from Canada to England. British commercial practice is, indeed, replete with examples of protection of various kinds to domestic producers.

The list of goods so dutiable follows:

Optical glass and optical elements, whether finished or not; microscopes, field and opera glasses, thermometers, sextants, spectrometers and other optical instruments; breakers, flasks, burners, glass eyeglasses, thermometers, barometers, pyrometers, pyrometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; scientific and technical apparatus; glassware and lamp-blown ware; evaporating dishes, crucibles, combustion boats, and other laboratory porcelain; galvanometers, pyrometers, electroscopes, barometers, analytical and other precision balances, and other scientific instruments, gauges, and apparatus; scientific and technical publications of all kinds; Growing old too soon

WHY is it that women, especially middle class and working class housewives, are so much more often sufferers from anaemia and general debility than men of the same age?

The answer is in nine cases out of ten very simple—they do not feed themselves properly.

The result is that they are consistently under-nourished, and, in particular, that their diet is dangerously deficient in those rare but all-important food accessory substances which recent research has shown to be absolutely essential for the maintenance of health and vitality.

When the daily dietary does not contain a sufficiency of these essential elements, ill-health, or worse, is inevitable. The digestion suffers, appetite is impaired, and the desire for food lost, and so is set up a vicious circle resulting in premature ageing and a chronic condition of ill-health that takes all the good out of life. Medicine is useless—the only remedy is to take proper food at proper times, and to keep on taking it.

Nothing will help more, to bring about a quicker improvement, than the regular inclusion of BOVRIL in the dietary.

BOVRIL is rich in just those elements that are required to make good dietary deficiencies, and to energise and stimulate cell activity.

A cup of BOVRIL at eleven in the morning—or as part of a light mid-day lunch—and another cup before going to bed at night, will make all the difference in the world to the overstrained, over-tired housewife. It is a simple and easy way—without any “dosing” or “treatment”—to make good the deficiencies in the daily dietary of the average woman.

BOVRIL

URGES CENTRAL BODY FOR SERVICE CLUBS

President of Vancouver Gyro Club Suggests Formation Here of Community Service Clubs Council

The formation here of a community service clubs council, body for the consolidating of the service efforts of the Rotary, Kiwanis and Gyro Clubs, was urged before the Gyro Club yesterday by Dr. Edward Holland, president of the Vancouver Gyro Club, and president of the Community Service Clubs Council in the Mainland city.

Such a council, said Mr. Holland, would act as a clearing house for the three organizations. Recommendations regarding community service plans would be sent to it from the clubs, and the combined weight of these could then be thrown behind any project which the council endorsed. The Vancouver council had done good work, pointed out Mr. Holland, and he urged the local Gyro Club to move toward the formation of such a body here.

Clarence Lougheed, president of the newly-formed Calgary Gyro Club, was a guest at yesterday's luncheon.

In addition to his address by Mr. A. T. Gardner, manager of the R. C. Electric Railway Company, reported elsewhere in this issue, and short talks by Messrs. Holland and Lougheed, there was a musical programme. A saxophone solo was rendered by Gyro Henry King, a vocal solo by Gyro Bert Waude, and selections by the Gyro Orchestra.

SHIPPING NOTES

The Harrison Direct Line freighter Asgard, United Kingdom for Victoria, reached San Francisco yesterday from Glasgow and other British ports. She should be here about the end of the week.

The Canadian-Australasian liner Makura is reported as reaching Auckland, New Zealand, on October 28, from Victoria. The Niagara, inbound, is due here on Saturday.

The Admiral Line steamship Keystone State sails outward on Saturday of this week. She is now loaded.

RUSSIA BRINGS IN NOTED PASSENGERS

Diplomats and Business Barons of Nations Cross Pacific on Canadian Pacific Liner — Siamese Prince Aboard

With a big passenger list including many notable travelers, the Canadian Pacific steamship Empress of Russia reached here yesterday morning just after eight o'clock from the Orient. The liner brought in two hundred first class passengers.

Dr. F. L. Schaffner, of Ottawa, returned on the vessel from a tour of China and Japan, Senator B. H. Smith, of Johannesburg, South Africa, has also just completed a trip through the Oriental countries, and has now arrived in Canada with the intention of visiting here for some time.

Messrs. Yu Jie-Ching and Chiang Wu-lu, Chinese officials were on their way to Washington to join the rest of the delegation which crossed the Pacific to San Francisco. Mr. Chang Yu, of the Department of Communications, and Mr. Yang Tien-chi were also members of the small party arriving by the Empress. They will act as advisers to the delegates.

Col. John F. Stevens, chairman of the International Railway Board, was on his way to New York. He has been in Harbin, Manchuria, for the past two weeks.

Nothing will help more, to bring about a quicker improvement, than the regular inclusion of BOVRIL in the dietary.

BOVRIL is rich in just those elements that are required to make good dietary deficiencies, and to energise and stimulate cell activity.

Other passengers aboard the vessel were Dr. de Schweinitz, of the University of Michigan, Dr. G. H. Vining, president of the Rockefeller Foundation; Dr. W. Welch, of the Johns Hopkins Medical College, Baltimore, and Dr. J. G. Clark, of the University of Pennsylvania.

All four were members of the group of medical men who accompanied John D. Rockefeller, Jr., to China for the Union Medical College at Peking.

Medical Men Come

Other passengers aboard the vessel were Dr. de Schweinitz, of the University of Michigan, Dr. G. H. Vining, president of the Rockefeller Foundation; Dr. W. Welch, of the Johns Hopkins Medical College, Baltimore, and Dr. J. G. Clark, of the University of Pennsylvania.

All four were members of the group of medical men who accompanied John D. Rockefeller, Jr., to China for the Union Medical College at Peking.

Medical Men Come

The Chancellor and the Merchant have both been ordered to this Coast by the Harrison Direct Line. The Chancellor will be turning to British ports and the Merchant will take on cargo later this month. The ships are due in British Columbia waters late December or early January.

CONTRACT LET FOR RUPERT DOCK JOB

PRINCE RUPERT, Oct. 31.—Word has been received in the city that a contract for the building of the superstructure of the new steel dock here has been let to a Winnipeg firm. The name of the firm is not yet announced, but it is believed in well-informed circles that it is the Simmonds Construction Co., which is well-known for its work on the job. There were four or five local tenders and several from the outside as well.

Colonel Peck, on being asked regarding the matter, said he knew the contract had been let, but he had not been advised as to who was the successful bidder.

SINKING LAUNCH CUT OFF DECKHAND'S FOOT

VANCOUVER, Oct. 3.—Douglas Gordon, of Vancouver, deckhand on the steamer Camosun, lost his left foot yesterday when it was cut off by a hand which was attached to a sinking launch, which the Camosun was attempting to salvage.

MONTRAL MASTER TO COMMAND BRITISHER

PRINCE RUPERT, Oct. 31.—Capt. William Larmon, first officer of the steamer Larmon, has been appointed to the command of the new Government freighter Canadian Britisher. Capt. Larmon has arrived here from Montreal, and expects to take out his ship about November 9.

SOURCE'S FLOOD OF PAPER MONEY

MOSCOW, Oct. 31.—A paper money reaching the enormous total of \$7,800,000 roubles has been issued by the Soviet Government, the last output being 750,000,000 roubles in new money for the opening of the National bank.

The Admiral Line steamship Key-

stone State sails outward on Saturday of this week. She is now load-

THEOLOGICAL VESSEL BOTTOM SIDE UP

MILWAUKEE, Oct. 31.—The two master sailing vessel Rosabelle, of the House of David, a religious organization at Benton Harbor, Mich., was found floating bottom side up in Lake Michigan, 42 miles from Milwaukee. Yesterday, it was announced by officers of Car Ferry No. 4, Ann Arbor, who made the discovery.

No trace of the crew was found. According to Captain Olsen, United States coast guard, the vessel probably sprang a leak, swamped and rolled over.

Employment of Japanese engineers on the towboats used by Captain Gardner in the disposal of the city garbage will not hereafter be permitted. The protest of the local council of the Marine Engineers Association, submitted to the City Council last week, was last night declared well-founded in a communication from City Solicitor H. S. Pringle, after a perusal of the contract, and Captain Gardner will have his attention drawn to the stipulations of the agreement and be requested that he observe them.

The contractor was made between the city and Captain Gardner in February, 1920. Two references are made to the employment of Oriental labor therein, wrote Mr. Pringle, Section 10 being in part as follows:

"The contractor shall employ no Chinese, Japanese or other Asiatics, in or about the work to be done under these specifications, including operations, tools, materials, provided by him when used for city work, and he shall pay all workmen employed the full and current rate of wages allowed for work of a similar nature in the city of Victoria."

NAVAL PATROL MAY GO AFTER DERELICT

Abandoned Japanese Vessel Is Menace in Path of Shipping —Will Be Sunk or Salvaged —Officers and Crew Land

SEATTLE, Oct. 31.—A naval vessel may be sent out from this port to sink the Japanese steamer Fukul Maru, reported a menace in the path of shipping. Masters have been cautioned to be on the lookout for the derelict, and warnings have been distributed through the different hydrographic offices.

Lieut.-Commander R. A. Abernathy, United States hydrographer for this district, on receipt of the information, at once communicated with the Puget Sound naval station at Bremerton, and it is likely that a naval vessel will be sent out to the vicinity. In the event that some vessel, picking up the广播ed warning, does not go to the scene and attempt to salvage the derelict, the naval patrol will take steps to remove the menace to navigation, as the Fukul, in her present waterlogged condition, is a hazard. Her officers and crew were rescued from the vessel by the steamship West Ivan, and are now en route for Japan.

A. M. Gillesepie & Co., local agents for the abandoned vessel, yesterday had received no advice from the head office of the Yamashita Kisen Kaisha, charterers of the Fukul Maru, as to what proceedings to take. If any, and in view of the fact that the vessel is now adrift in the North Pacific waters, were received by the Empress of Russia, warning, one or more of them will likely visit the scene and attempt to salvage the vessel if such is possible.

While no advices have been received from Capt. F. W. Brooks, her commander, the steamship Eldridge, of the Admiralty Line's Oriental service was last week adrift in the North Pacific, position Friday night, and is believed to be investigating the condition of the abandoned vessel.

The salvage of this ship, and her cargo would net the officers and crew of the Eldridge a neat sum if successful.

Fatal Floods in Guatemala

GUATEMALA CITY, Guatemala, Oct. 30.—Torrential rains in Western Guatemala have done great damage to property, but caused floods in which persons lost their lives. The city of Quetzaltenango, 70 miles west of here, is flooded and large tracts of the country are under water.

Aluminum sulphate is used to settle or precipitate dirt in drinking water.

What's at the Playhouses?

ROYAL Perhaps the greatest VICTORIA animal and human interest story ever screened in the picture version of James Oliver Curwood's "Kazan," which opened an engagement at the Royal Victoria Theatre yesterday to a capacity house. The extraordinary story of the project in the jungle, which was directed by Bertie Bracken, certainly beggar description—the remarkable performance of a dog, acting more human than brute, and the realistic battle of two persons, one a girl, with an attacking pack of hungry wolves constituting some of the high lights, while the colour and lighting effects were superb. Another outstanding feature of this production is the quite unusual photography, many of the scenes of the snow-clad Canadian Northwest constituting the zenith of pictorial perfection. As was the case in "Back to God's Country" and "Nomads of the North," the locale of "Kazan" is in the Far North, and "Kazan" is a half-savage dog who turns against all men after the murder of his master. But he is befriended by a girl, Joan Radisson, and never forgets her kindness. How he repays this kindness by three times saving her from wolves, both brute and human, and becomes the

BAND IN ATTENDANCE**MUSICAL EXPLORER**

When Sir Francis Drake fitted out his expedition which was to encircle the globe in 1577 among the crew of his little ship he made room for several musicians. In the style of the aristocracy of the time the doughty explorer always had a music box on the table. In his diary a Spanish officer, a prisoner on the vessel tells how "The Dragon" (as Drake was known in that country) "always dined and supped the must of viols."

Wherever they landed the music of Drake and his men was always a source of great wonder and amusement to the native savages. In his story of the voyage the chaplain of the crew tells how a king with his council came out in a canoe to meet them. He was so charmed with the music that he asked that the musicians might ride in his canoe and, while it was towed along he was "in a musical paradise."

The tuberculous death rate in the United States is dropping steadily.

MUST STAND TRIAL

Court Holds Accused Arrested Without Warrant Cannot Avoid Meeting Charge
By a decision rendered in the County Court yesterday by His Honor Judge Lampman, Charles Bright, who is appealing from a police court conviction on a charge of having liquor for sale, under the old Prohibition Act, must stand trial. His counsel, Mr. R. C. Lowe, had entered a preliminary objection to the trial on the ground that the accused was arrested without warrant.

Yesterday the learned judge said that English law, supported by many decisions in Ontario, and at least by one recent decision in British Columbia, that of Judge Cayley, held that it mattered not whether an accused person was brought before a court; provided the court had jurisdiction as to the person of the accused.

His Honor thought that he must follow those decisions. The motion for dismissal would be dismissed next Friday. Mr. L. L. Harrison is appearing for the prosecution.

In addition to preparing the way for the Russian singers, Mr.

NANAIMO DISTRICT SUFFERED FROM FLOOD

City Waterworks Damaged to Extent of Thousands of Dollars — Mining Properties Also Affected

NANAIMO, Oct. 31.—A survey of the district surrounding Nanaimo as the result of the heavy rainfall and swollen streams indicates that the damage done will take some time to repair. The Nanaimo City Waterworks suffered considerable damage. No. 2 dam being broken in two places, one on each side of the railway, was washed out of the railway. The water was the rush of water into No. 1 dam that the sides were washed away and the heavy pipe line to the city was in danger of collapse owing to the supports having been swept away. Water has ceased to flow through the water works. The Nanaimo River, which has been the cause of all movements for the betterment of community life, and particularly will be missed on the team of the premier Nanaimo baseball club, with which he played third base and was second to none in ability and effectiveness. He organized and coached the Nanose baseball team, bringing the aggregate of athletes up to a high standard, and found time as well to give unselfed service with the home team, who greatly regret his departure. His loss of friends in the whole district will be missed by the team of the premier Nanaimo baseball club, with which he played third base and was second to none in ability and effectiveness. He organized and coached the Nanose baseball team, bringing the aggregate of athletes up to a high standard, and found time as well to give unselfed service with the home team, who greatly regret his departure. NANAIMO NEWS NOTES

NANAIMO, Oct. 31.—The funeral of Frederick Douglas Beddington took place Saturday afternoon from the residence of Mr. H. Smith, South Five Acres, River of Ryall, including the services, acted by pallbearers, F. Smith, W. Wells, W. Curry, R. James. The little coffin was shrouded with flowers sent by the many friends of the family and were a mute testimony of sorrow at the passing of the unfortunate victim of the Granby fire. Roy Beddington, who also was badly injured in the fire, is making satisfactory progress towards recovery and is now reported to be out of danger.

About twenty pupils of the Nanaimo High School will be the guests of the North Vancouver High School pupils on Friday next. The locals will comprise the basketball and football teams, and will try conclusions with the mainland school teams. A social and dance will be held in the North Vancouver Drill Hall following the games.

The local lodge of the Knights of Pythias will on Tuesday evening put on a third degree, amplified form, and good attendance is requested.

The Ambulance Association of the Canadian Western Fuel Corporation gave its first whilst drive and dance on Saturday evening and was largely attended. The winners in the whilst

North of Nanaimo latest reports state there are at least three bridges out, including the French Creek bridge, and the road to Cumberland is impassable for cars.

COBBLE HILL, Oct. 29.—Chautauqua has come and gone. That is not quite true, for though the artists and general staff are with us no more, there remains a memory of pleasant days when spent in contact with the products of the big, old school of art of Mathew Wayman and his fervid oratory, his plea for unity and common sense, for Canadianism and Anglo-Saxon ideals. Of Dempster, with his clear-cut message from the tragedy that is Russia, the immolation of a great people on the altar of a system of which the author of which is cold-blooded devilry, the general that has not got his grip on a great sense of simple humanity and from which there seem little escape. If for nothing else, the Chautauqua circuit is justified by Lieut. Dempster's "Red Russia With the Lid Off."

But, with the wisdom of the serpent, Chautauqua coats the pill of education with the sugar of pure enjoyment. What shall be said of Mathew Hilburn, that prince of impersonators, whose Southern politeness is a thing of pure joy, his dark minister and retired farmer, Uncle Bill, character drawings of insight and finish. Of Claude Schell and his accomplished partner, Miss Moore, the one a skilled artist through hard work, the other the other a pianist of no mean attainment. Of the Bating Maher Duo—Miss Bating is a genuine comedienne of the Little Venn type. And the Williams concert company. Mr. Williams is a comedian of a type that is fast disappearing, much to the detriment of the sum of the world's joy and glee. His "Old Gold," "One Now," "Cabbages, Cabbages and Carrots," "Liza 'Ad 'Old of Me 'And" and "Roses" and Radishes, Pansies and Peas," kept his audience in gale of laughter.

In Agnes Ade, Canada possesses one of the most dramatic sopranos of the future. Agnes Ade possesses everything, color, range, power, agility, and it is a tragedy of tragedies that her great gift should be subjected to the wear and tear of one-night stands to obtain sufficient means to finish her musical education. Agnes Ade's singing was full of faults, but these, such as they were, were forgotten in the glory of a voice that was more of a revelation than the fault.

Agnes Ade and Mr. Williams were well supported. As a soloist Miss Browne leaves something to be desired, though her rendering of a Scotch reel was excellent. But as an accompanist there is no doubt whatever of her qualifications, and her rendering of the accompaniment of the "Fiddle St. Mary," her own composition, by the way, was a genuine musical treat.

To Mr. Evans great credit is due, not only for his skillful handling of the difficult subject, "The Average Man," but for the harmony and esprit de corps evident among his company.

Chautauqua is coming back next year, coming back to build still further on the foundation of community spirit which, with the assistance of localities of guarantors, they have so surely laid. It was unfortunate the climatic conditions were not more favorable. Certainly our visitors must suspect us of being possessed of webbed feet, for in spite of the torrents that never ceased, there was always a good and generally a very appreciative audience.

HALLOWEEN PARTY AT WEST SAANICH

Delightful Seasonable Entertainment
Greatly Enjoyed by Children—
Those Who Won Prizes

BRENTWOOD, Oct. 29.—In spite of the pouring rain, an exceedingly good attendance at the children's Hallowe'en party which took place in the West Saanich Hall on Friday evening. The many bright and pretty costumes of the little ones made a pleasing picture as they marched in couples around the hall, the leader being a real Hallowe'en Queen wearing a purple mask and lighting the way with a pumpkin lantern. The judges, Mr. and Mrs. T. Peden and Mr. T. Tubman, awarded the prizes as follows: Best Hallowe'en costume, girls, Shirley Sluggett; best Hallowe'en costume, boys, Bobby Knappenberg; best dressed girl, Daphne Clark; best comic character, Shirley Sluggett. After playtime, the Hallowe'en games for older children drew partners for a Saimagundi, the different contestants being under the supervision of Mrs. R. Sluggett, Mrs. H. L. Knappenberg, Mrs. Atkins, Mr. Herbert Creed and Mrs. J. W. Sluggett.

While this game was in progress the little tots were entertained in an adjoining room by Messrs. L. Thomson and H. L. Knappenberg, who demonstrated various colored pictures on an improvised screen with the aid of a magic lantern. The couple scoring the highest number of points for the evening were Lorne Shaw and Mary Peden, while second prizes were awarded Ida Heyer and Claud Creed. Clarence Sluggett was the most successful in the candy hunt. A collection was taken up in a box which occupied the centre of the hall, the centre of which was a charming arrangement of marigolds and greenery. Thanks are extended to all who contributed to the success of the affair, and particularly to the ladies who assisted with the serving of refreshments.

DISINCORPORATION OF CITY OF ALBERNI

The following resolution of the Alberni City Council was passed unanimously October 28:

"Whereas, certain telegrams or communications have been dispatched to the Hon. John Oliver, Premier of the Province, signed by C. E. Bishop, president, and E. M. Whyte, secretary, and purporting to be on behalf of the executive com-

mittee were: Ladies, first, Mrs. Beal; second, Mrs. Little; third, Miss Gear. Gentlemen, first, J. Rothery; second, R. Johnson; third, W. Doher.

Mr. Geo. Reifel returned to Vancouver yesterday after a successful hunting trip on the Island. Strapped to the back of his car was a big buck deer weighing 170 pounds, which Mr. Reifel shot up the Island.

CHAUTAUQUA SUCCESS AT COBBLE HILL

Programme of varied Character Deighted Audience—Will Return
Next Year

COBBLE HILL, Oct. 29.—Chautauqua has come and gone. That is not quite true, for though the artists and general staff are with us no more, there remains a memory of pleasant days when spent in contact with the products of the big, old school of art of Mathew Wayman and his fervid oratory, his plea for unity and common sense, for Canadianism and Anglo-Saxon ideals. Greatly Enjoyed by Children—
Those Who Won Prizes

BRENTWOOD, Oct. 29.—In spite of the pouring rain, an exceedingly good attendance at the children's Hallowe'en party which took place in the West Saanich Hall on Friday evening. The many bright and pretty costumes of the little ones made a pleasing picture as they marched in couples around the hall, the leader being a real Hallowe'en Queen wearing a purple mask and lighting the way with a pumpkin lantern. The judges, Mr. and Mrs. T. Peden and Mr. T. Tubman, awarded the prizes as follows: Best Hallowe'en costume, girls, Shirley Sluggett; best Hallowe'en costume, boys, Bobby Knappenberg; best dressed girl, Daphne Clark; best comic character, Shirley Sluggett. After playtime, the Hallowe'en games for older children drew partners for a Saimagundi, the different contestants being under the supervision of Mrs. R. Sluggett, Mrs. H. L. Knappenberg, Mrs. Atkins, Mr. Herbert Creed and Mrs. J. W. Sluggett.

While this game was in progress the little tots were entertained in an adjoining room by Messrs. L. Thomson and H. L. Knappenberg, who demonstrated various colored pictures on an improvised screen with the aid of a magic lantern. The couple scoring the highest number of points for the evening were Lorne Shaw and Mary Peden, while second prizes were awarded Ida Heyer and Claud Creed. Clarence Sluggett was the most successful in the candy hunt. A collection was taken up in a box which occupied the centre of the hall, the centre of which was a charming arrangement of marigolds and greenery. Thanks are extended to all who contributed to the success of the affair, and particularly to the ladies who assisted with the serving of refreshments.

Chautauqua is coming back next year, coming back to build still further on the foundation of community spirit which, with the assistance of localities of guarantors, they have so surely laid. It was unfortunate the climatic conditions were not more favorable. Certainly our visitors must suspect us of being possessed of webbed feet, for in spite of the torrents that never ceased, there was always a good and generally a very appreciative audience.

HALLOWEEN PARTY AT WEST SAANICH

Delightful Seasonable Entertainment
